

CAA Member Rotation Schedule

Terms ending 2020-2027

The CAA has authority to manage or adjust terms of service (e.g., balance member representation), when warranted. In October 2019, the CAA approved revisions to the CAA member rotation schedule to restore balance to anticipated vacancies in three service categories. These revisions will affect the term lengths for some new members who begin service in 2023 and in 2024.
