

2026 CAA Application TEMPLATE - Audiology

General Information & Instructions

Reports submitted to the CAA are major sources of substantiating information about elements of an education program in relation to its compliance with the Standards for Accreditation of Graduate Education Programs in Audiology and Speech-Language Pathology. Programs must report on the continuity and recovery of the program's operations if events occur that significantly interrupt normal institutional operations, as applicable. It is the responsibility of the program director to submit completed reports to the CAA on or before the due date.

Programs are required to submit accreditation review materials by February 1 or August 1, except for programs applying for candidacy status for which applications are scheduled to be submitted January 1 or July 1. Due dates for programs that hold an accreditation status, e.g., accredited, candidate, are assigned based on the dates of the programs' accreditation or candidacy cycles. Accreditation reports must be filed through the on-line reporting system unless otherwise directed.

The CAA has provided programs with a [PDF slide show](#) and [YouTube video tutorial](#) that gives a basic overview of accessing and using the Armature Fabric platform, along with other helpful resources, on the [Resources page of the CAA website](#).

I. Entering Responses

- a. Save often! When entering data, clicking the NEXT button will advance you to the next section of the instrument, however the SAVE feature should be used often to prevent loss of data.
- b. If more than one user is accessing the report instrument to provide data, report editors should not work on the same Standard section simultaneously. Changes to a page may not save correctly if multiple users have the same Standard page open at the same time.
- c. Whenever possible, responses to questions within this instrument should be **plain, unformatted text**. Using other text formatting may cause the system to slow. If content needs to be added from a website, Word document, or other computer application, users should do the following:
 1. Open Notepad or a similar application to create a new text file.
 2. Copy the desired content from the website, Word document, or other application.
 3. Paste the copied content into the Notepad text file (this will strip out formatting).
 4. Copy your now unformatted content from the text file and paste into the report.

II. Responding to Prior Concerns

- a. You **must** respond to any non-compliance citations or areas for follow-up that were noted on the previous Accreditation Action Report. There is a text box at the start of each standard section to respond to prior concerns.

- b. When providing supporting evidence to the CAA for Standards and any prior concerns, refer to the [Document Guidance](#) resource from the CAA website for possible sources of evidence to provide in your response.

III. Use of Distance Education Technologies

- a. If (during the last reporting period) your program offered (or is currently offering) coursework via distance education *or* if your program has been approved for a permanent distance education modality, your program **must** address institutional policies regarding verification of student identity.
- b. Standard 4.10 states the following:
- **Standard 4.10: The program must adhere to its institutional policies and procedures to verify that a student who registers for a distance education course or program is the same student who participates in and completes the program and receives the academic credit.**
 - The program must document that the institutional policies regarding verification of a student's identity are followed and implemented and applied consistently.
 - The program must make clear that the identities of students enrolled in a distance education course or program are protected.
 - All programs who utilized distance education technologies, even if on a temporary basis, are required to answer the questions related to distance education.
- c. The online report instrument is designed with conditional logic throughout so that if the response under the modalities section is "yes", additional questions related to distance education will appear for you to respond to.

IV. Submitting Your Report

- a. Before submitting:
- i. Review and verify all data reported is accurate and current.
 - ii. Ensure that all links to websites are accurate and are working.
- b. **Only Program Directors may submit the application. To submit the application, you must click the submit button at the bottom of the instrument and confirm that you are submitting your accreditation application. You can verify that you have submitted your application by clicking the Instruments tab and reviewing the status of this application instrument.**
- c. It is understood that any information submitted for the purposes of this evaluation shall be used to determine compliance with CAA Standards; furthermore, non-identifying program data may be analyzed and published in the aggregate in order to further the purpose of the CAA, which is to assure quality in preparation of students in audiology and speech-language pathology to serve the professions and the public.

V. Additional Resources

- a. Refer to the following policies regarding report submission and timelines which are outlined in the [Accreditation Handbook](#) (Chapter XI. EXPECTATIONS OF PROGRAMS). Make sure you are familiar with the rationale, criteria, and timelines for each of these policies.
- i. Requests for Submission Extension (Chapter XI.C)
 - ii. Administrative Probation (Chapter XI.D)
 - iii. Lapse of Accreditation (Chapter XI.E)

- b. Additional reporting resources may be found on the CAA website (<https://caa.asha.org/Resources/>) and include data collection worksheets, templates for documents to be uploaded with your CAA report, additional documentation guidance (<https://caa.asha.org/siteassets/files/accreditation-standards-documentation-guidance.pdf>), and other information about submitting your CAA report.

- Include a minimum of 12 months' full-time equivalent of supervised clinical experiences. These include short-term rotations and longer term externships and should be distributed throughout the program of study.
- Establish a clear set of program goals and objectives that must be met for students to acquire the knowledge and skills needed for entry into independent professional practice.
- Establish a clear process to evaluate student achievement of the program's established objectives.
- Offer opportunities for each student to acquire the knowledge and skills needed for entry into independent professional practice, consistent with the scope of practice for audiology, and across the range of practice settings.
- Offer a plan of study that encompasses the following domains:
 - professional practice competencies;
 - foundations of audiology practice;
 - identification and prevention of hearing loss, tinnitus, and vestibular disorders;
 - assessment of the structure and function of the auditory and vestibular systems as well as the impact of any changes to such systems;
 - intervention to minimize the effects of changes in the structure and function of the auditory and vestibular systems on an individual's ability to participate in his or her environment.
- Offer high quality learning environments that are learner centered, knowledge and skill centered, and assessment centered.
